INTEGRATED MEDIA SERVICES
CONTENT STRATEGY | CONVERSION MARKETING | CUSTOMER ACQUISITION

PROGRAM DESCRIPTION:

The SEARCH ENGINE OPTIMIZERSM program is only available from ASTRALCOM and is the most comprehensive suite of optimization services designed specifically to increase your website's search engine rank positioning (SERP) in Google, Yahoo and Bing.

HOW SEARCH ENGINE OPTIMIZER WORKS:

Based on the "3 Pillars" approach to search engine optimization, we've organized SEO into three distinct silos:

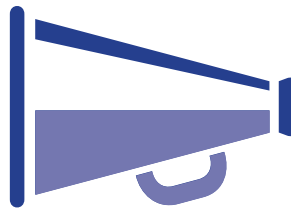

1) Onsite Optimizations:

meta's, alts, link structure
content and keywords

2) Offsite Optimizations:

optimized social media,
public relations and
shared content

3) Backlink Optimizations:

high page rank, trusted
domain backlinks

These three content optimization areas work together to help the three main search engines rank your website more effectively
